

**GigaCore**  
ETHERNET SWITCHES

# RELEASE NOTES

---

**VERSION 2.8.8**

## DOCUMENT INFORMATION

This release is to support hardware changes needed for GigaCore devices with RevA designator and introduces no new features.

## FIXES & IMPROVEMENTS

- An issue was resolved where occasionally some mdns packets would be dropped.

## KNOWN ISSUES

- The total PoE budget for LU 01 A0052-POE | GigaCore 26i with PoE Rev A is reduced from 370W to 330W.
